

SMALL WIND COMMUNITY FORUM

Join Beth and Paul Losiniecki, owners of Green Heron Alternatives, LLC for a discussion on small wind and how it can work for local farms, municipalities, schools, and rural homes. Other alternative energy options will also be discussed. There will be a review of state and federal incentive programs for renewable energy, including tax credits, rebates, and grants.

Tuesday, March 23
7:00pm
HCB
no fee

WHAT'S IN THE LANDFILL?

Participants will learn about decomposition rates of typical household items that are frequently thrown away and end up in landfills. They will be encouraged to brainstorm for ideas about how to reuse these items rather than discarding them. At the end of the class we will bury these common household items in a designated plot. In the fall participants will reconvene for the "big dig" when the items will be unearthed and examined for deposition rates. *Each person should bring one item to the session.

Tuesday, April 27
3:15-4:30pm
Grades 2-5
Pioneer Park
\$8

LITTLE SPROUTS

Each participant should bring seeds from home that are found in common fruits and vegetables. We will examine and discuss the potential of the seeds to sprout. Each child will come home with potted seeds to nurture and observe. The sprouted plants may be added to the home garden later in the season.

Tuesday, May 11
3:15-4:15pm
Grades K-3
Pioneer Park
\$8

GET TO KNOW YOUR COMPUTER

Do you have a computer but aren't sure how to use many of the functions? Lori Eberly will work with you to address specific concerns or computer needs. On the registration form please comment on what you would like to learn. You will be contacted to set up your class date and time.
